## BIG TIMER INSTALLATION

Before installing the following considerations should be made to select a suitable mounting position.

- Viewing angle from various locations
- Sun strike will affect display readability
- Mounting height for ease of daily placement and retrieval
- Power point access

### *REQUIREMENTS*

Power Supply: 220-240VAC, 50Hz

Operating Temperature: 0°C to 40°C

### *MOUNTING BRACKET*

The supplied mounting bracket utilises a Neodymium Magnet attached to the timer that mates to a steel plate screwed to a wall or post at the desired height. This steel plate must be positioned with the small ledge horizontal and at the bottom.
